

BRIGHTSPEED LOCAL SERVICE PROVIDERS BY NPA-NXX

The following pages list Brightspeed's local NPA-NXXs in ascending order. Use your PDF viewer search functionality to locate your NPA-NXX (search without the hyphen). Please see important information below.

- The "Information About Your Account" section of your monthly billing statement lists your Brightspeed independent local exchange carrier ("ILEC") providing service at your address(es). If you have multiple Brightspeed service providers or to locate the name of the Brightspeed local exchange carrier providing service at a Service Address in your contract, look for the NPA-NXX in the first column of the following pages. The NPA-NXX is a number consisting of an Area Code plus the first three digits of the telephone number.
- If you receive Service from Brightspeed and your NPA-NXX is not listed, you can find the Brightspeed local service provider to which your NPA-NXX is assigned on your monthly billing statement.
- The NPA-NXXs are only those assigned to Brightspeed ILECs. NPA-NXXs associated with numbers ported from another carrier are not included, and you will need to locate your specific Brightspeed service provider through other means.
- Brightspeed will attempt to keep the information provided on the following pages timely and accurate, but we make no guarantees, and disclaim any warranty or representation about its accuracy, timeliness, completeness, or appropriateness for a particular purpose. Brightspeed may change the information at any time without notice. You may not redistribute, republish, or make public (outside of your organization), our Local Service Providers by NPA-NXX table or its contents.
