

## News Release

# High-Speed Fiber Internet Expansion Gains Momentum in Alexander County, NC

***Brightspeed bringing multi-gig-speed, 100% fiber-to-the-home internet to families and small businesses in Bethlehem***

**CHARLOTTE, N.C. — July 22, 2026** — Faster internet is officially on its way to rural communities in the Foothills! [Brightspeed](#), the nation's third-largest fiber broadband builder, is advancing its plan to build its multi-gig-speed fiber internet network for more than 2,400 homes and businesses across Alexander County.

Right now, construction is underway for nearly 1,700 locations in Bethlehem, N.C.

**This expansion is just a portion of the company's broader effort to connect roughly 1.2 million locations across the state to the nation's fastest internet ([highspeedinternet.com](#)).<sup>\*</sup> Brightspeed's fiber network expansion in North Carolina is roughly 60 percent complete.**

The table below illustrates where Brightspeed has connected to fiber or is currently building in neighboring counties:

| County           | Total Planned Locations |
|------------------|-------------------------|
| Alexander County | 2,428                   |
| Wilkes County    | 14,255                  |
| Catawba County   | 11,276                  |
| Caldwell County  | 10,051                  |

### What Alexander County Can Expect During Construction

As construction continues, residents may notice our trucks, crews and increased activity in their neighborhoods. Crews may dig, bore underground or work on existing utility poles to connect Bethlehem to Brightspeed's state-of-the-art network, which has a 4.4-star rating on Trustpilot and more than 19,650 five-star reviews,<sup>\*\*</sup> to more communities across the state.

We know construction can be disruptive, but this investment is designed to deliver long-term benefits: faster internet speeds, reliable performance and the bandwidth and capacity needed for online working, learning, streaming and multi-device connectivity.

Our teams will be clearly identifiable, and efforts will be made to keep residents informed as work progresses. Once construction is complete, families and business owners can meet directly with Brightspeed representatives, who will be in the area to spread the word about the availability of Brightspeed Fiber Internet.

### Check Availability & Get Connected

For Bethlehem and surrounding areas, this investment represents more than just speed. It's about creating new opportunities for families who have historically been left behind.

Brightspeed offers various internet speed plans to choose from. Residents and businesses in North Carolina can check if Brightspeed Fiber Internet is available in their area by visiting [www.brightspeed.com](#).
