

News Release

New High-Speed Fiber Internet Option Nears Completion in Lake Dallas, Texas

Brightspeed bringing multi-gig-speed, 100% fiber-to-the-home internet to families and small businesses in Lake Dallas

CHARLOTTE, N.C. — July 29, 2026 — Faster internet is officially on its way to Denton County! [Brightspeed](#), the nation's third-largest fiber broadband builder, is advancing its plan to build its multi-gig-speed fiber internet network for more than 11,200 homes and businesses in Lake Dallas and surrounding rural areas.

Right now, construction is underway for roughly 11,000 locations, with another 230 close behind.

This expansion is just a portion of the company's broader effort to connect roughly 450,000 locations across the state to the nation's fastest internet ([highspeedinternet.com](#)).* Brightspeed's fiber network expansion in Texas is almost 70 percent complete.

The table below illustrates where Brightspeed has connected to fiber or is currently building within Denton County:

County	Total Planned Locations
Lake Dallas	11,230
Sanger	3,399
Krum	2,654
Ponder	1,427

What Lake Dallas Can Expect During Construction

As construction nears completion, residents may notice our trucks, crews and increased activity in their neighborhoods. Crews may dig, bore underground or work on existing utility poles to connect Lake Dallas to Brightspeed's state-of-the-art network, which has a 4.4-star rating on Trustpilot and more than 19,650 five-star reviews,** to more communities across the state.

We know construction can be disruptive, but this investment is designed to deliver long-term benefits: faster internet speeds, reliable performance and the bandwidth and capacity needed for online working, learning, streaming and multi-device connectivity.

Our teams will be clearly identifiable, and efforts will be made to keep residents informed as work progresses. Once construction is complete, families and business owners can meet directly with Brightspeed representatives, who will be in the area to spread the word about the availability of Brightspeed Fiber Internet.

Check Availability & Get Connected

For Lake Dallas and surrounding areas, this investment represents more than just speed. It's about creating new opportunities for families who have historically been left behind.

Brightspeed offers various internet speed plans to choose from. Residents and businesses in Texas can check if Brightspeed Fiber Internet is available in their area by visiting [www.brightspeed.com](#).
