Construction Now Active for New High-Speed Internet Option Serving Thousands in Buffalo, Missouri

Brightspeed is bringing multi-gig-speed, 100% fiber-to-the-home internet to families and small businesses in Dallas County

CHARLOTTE, N.C. — July 21, 2026 — Faster internet is officially on its way to Buffalo! [Brightspeed](#), the nation's third-largest fiber broadband builder, is advancing its plan to build its multi-gig-speed fiber internet network for roughly 2,500 homes and businesses in the area. Right now, construction is underway for more than two-thirds of those locations.

This expansion is just a portion of the company's broader effort to connect nearly 310,000 locations across the state to the nation's fastest internet ([highspeedinternet.com](#)).^{*} Brightspeed's fiber network expansion in Missouri is more than 35 percent complete.

The table below illustrates where Brightspeed has connected to fiber or is currently building in neighboring communities:

County	Total Planned Locations
Lebanon	8,234
Buffalo	2,500
Conway	1,342
Wheatland	1,123
Weaubleau	233

What Dallas County Can Expect During Construction

As construction continues, residents will notice our trucks, crews and increased activity in their neighborhoods. Crews may dig, bore underground or work on existing utility poles to connect people to Brightspeed's state-of-the-art network, which has a 4.4-star rating on Trustpilot and more than 19,650 five-star reviews,** to more communities across the state.

We know construction can be disruptive, but this investment is designed to deliver long-term benefits: faster internet speeds, reliable performance and the bandwidth and capacity needed for online working, learning, streaming and multi-device connectivity.

Our teams will be clearly identifiable, and efforts will be made to keep residents informed as work progresses. Once construction is complete, families and business owners can meet directly with Brightspeed representatives, who will be in the area to spread the word about the availability of Brightspeed Fiber Internet.

Check Availability & Get Connected

For residents in Buffalo, this investment represents more than fast speed. It's about creating new opportunities for families who have historically been left behind.

Brightspeed offers various internet speed plans to choose from. Residents and businesses in Missouri can check if Brightspeed Fiber Internet is available in their area by visiting [www.brightspeed.com](#).
