Internet equals opportunity.

We believe everyone deserves access to the best internet service available, no matter where they call home.

That’s why we’re building our smart, fiber optics-based network in cities and towns in rural and suburban America – so homes and businesses have the reliable connectivity they need to work, learn, play, and thrive.

A new way to stay connected.

A startup with a great head start

- Company leaders are telecom industry experts with decades of experience
- More than 1M broadband customers
- Robust local network, with operations and back-office support to meet the demand for high-bandwidth connectivity
- More than 200K existing fiber-enabled locations, Brightspeed Fiber Internet build to reach 3M homes and businesses

Next-gen fiber technology that’s built to last

Fiber to the premises (FTTP) network engineered specifically for internet access.
- XGS-PON network capable of delivering super fast connections
- Distributed architecture that accelerates readiness and availability
- Dedicated connection
- Equal upload and download speeds
- Consistent and quick responsiveness
- Optimal speed and performance in every room using Wi-Fi 6
- Smart diagnostics and self-repair

Relentless drive to improve the customer experience

- Customer experience focused on simplicity, reliability, and support
- Access to the best service possible, whether through the copper network or the new fiber platform
- Simple product choices without confusing bundles, plans, or bills
- A full suite of customer product offerings:
  - Residential and Small Business: fiber internet, DSL, WiFi, voice
  - Enterprise Business and Wholesale: high-speed connectivity, voice, networking, and managed services solutions

Company culture built on simple ideals with powerful meaning and impact

Our beliefs differentiate us as a committed partner to the customers and communities we serve. Our team members demonstrate that commitment every day.
- We believe people matter
- We believe in thinking like customers
- We believe in being real
- We believe in delivering on big ideas
- We believe in the speed of light
- We believe in celebrating success

Fierce advocacy for internet equality in every market we serve

- $2B investment to significantly expand the availability of ultrafast, reliable, secure internet necessary for commerce, work at home, remote learning, and healthcare access
- Leadership role in community engagement and public-private partnerships to help bridge digital divide
- Participation in broadband infrastructure grant programs to extend our fiber network even farther
- Full support for federal Affordable Connectivity Program (ACP)
- Commitment to evaluate and prioritize copper network improvements
